

About WIDE HZ

WIDE HZ is a professional manufacturer of prefabricated houses in China, with 2 factories for production, and executes various construction projects, such as site construction, emergency housing camps, mass housing projects, schools, hospitals, Hotels, resorts.

The main products offered by WIDE HZ include customized shipping container homes, container bars, flat-pack container houses, folding houses, mobile toilets, and expandable houses.

WIDE HZ has a complete industrial chain and reliable raw material suppliers, which effectively shortens the production cycle and reduces production costs while ensuring high product quality.

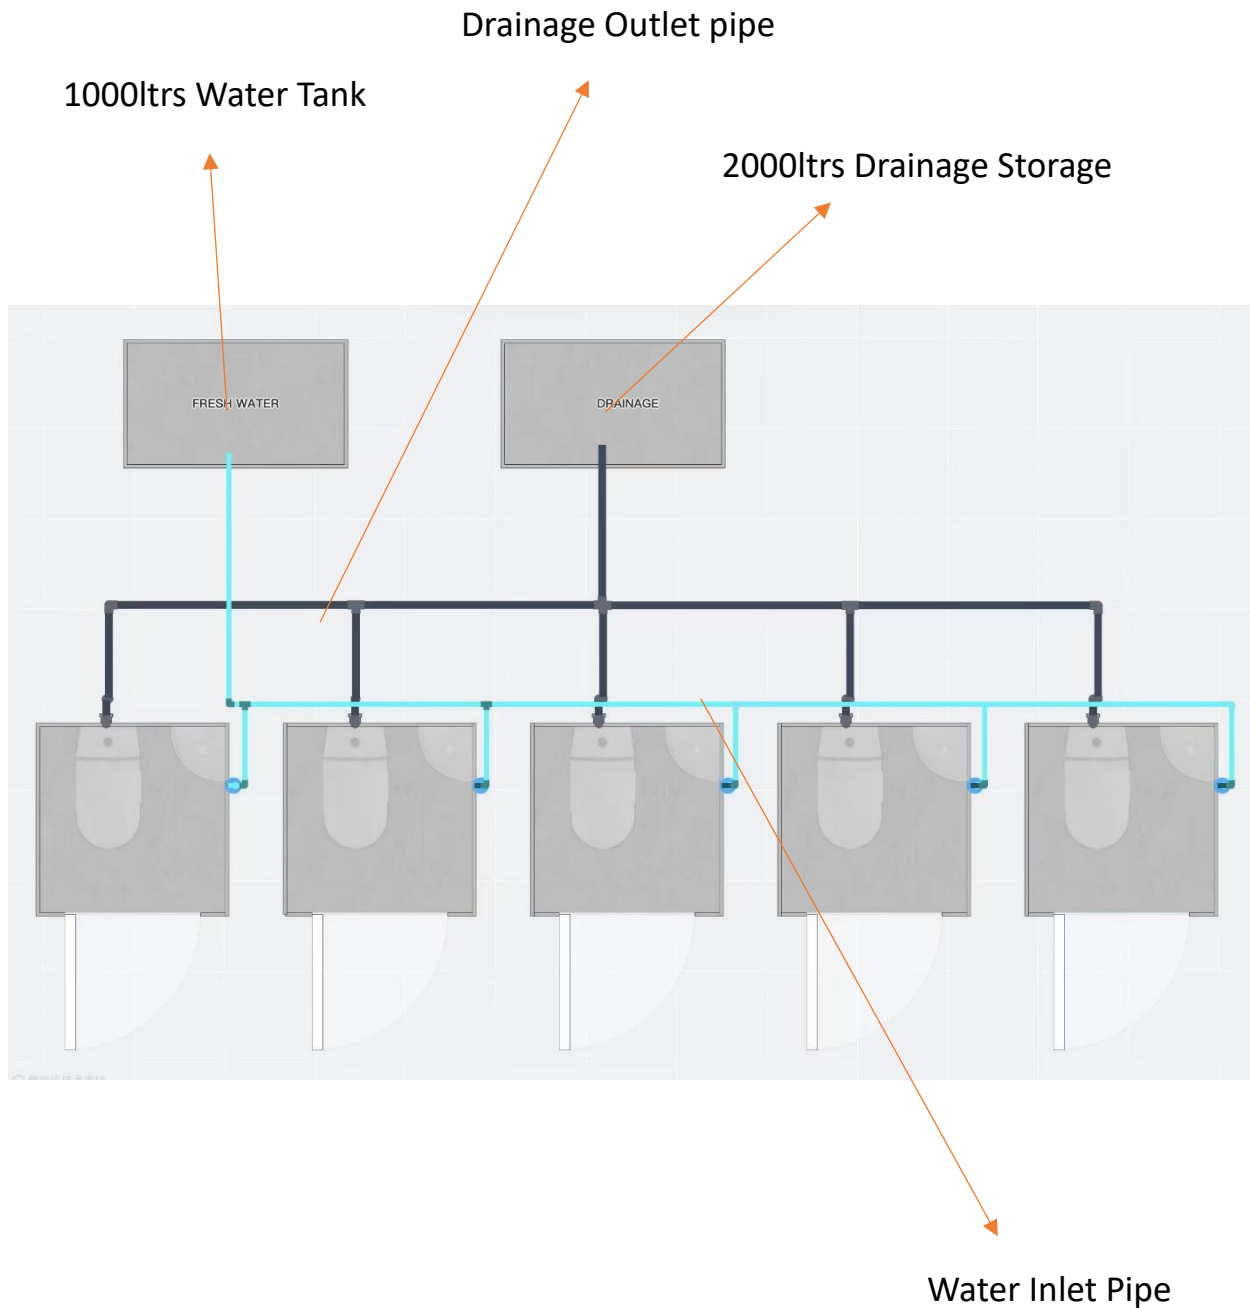

Due to commitment to innovation, development, and continuous improvement in housing solutions, the products of WIDE HZ have significant advantages in the market. We provide one-stop service, offering professional designs tailored to your needs and recommending the most suitable products for you.

Thanks to high-quality products and outstanding customer service, we have been expanding the domestic market in China, but also actively explore the international market.

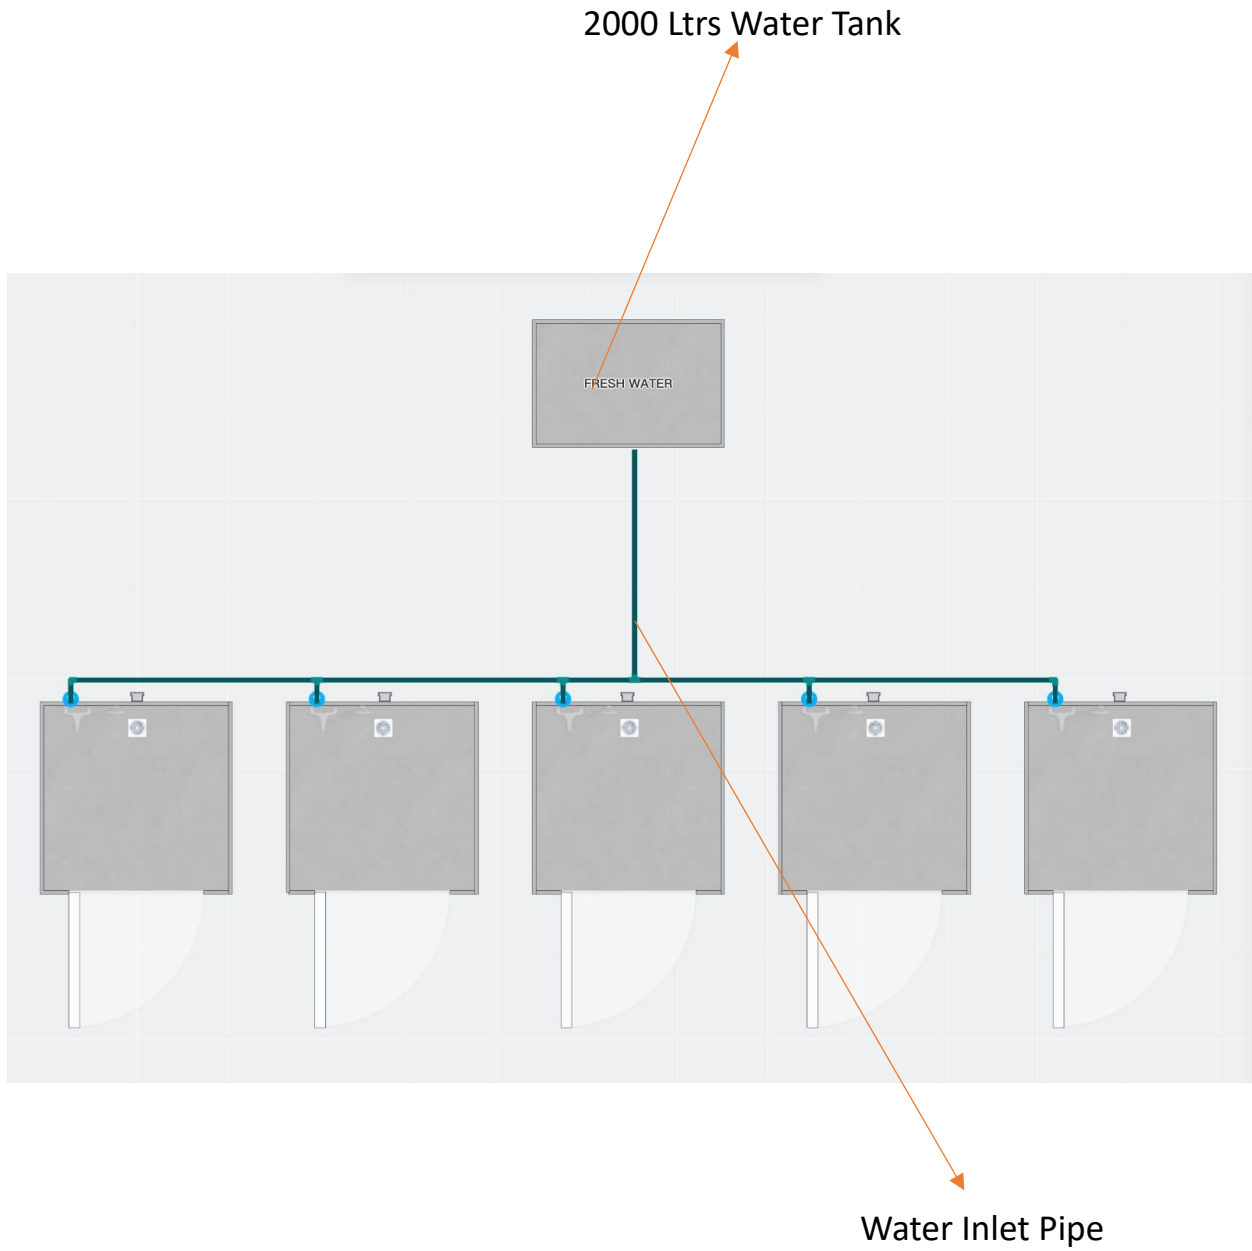

All our international team members are well-trained and professional on the products and international market.

Nowadays, we have already successfully exported our products to many countries.

➤ Drawing of Outlet & Inlet of Toilet (Model No.: WHTB-0434)

➤ Drawing of Inlet of Shower (Model No.: WHSB-0326)

➤ **Toilets (Model No.: WHTB-0434)**

A	Material	
1	Body	Light Weight Fiber Reinforced Plastic (FRP)
2	Wall Thickness	3 mm
3	Base Thickness	6 mm
4	Door Size	750 mm X 1800 mm
B	Unit Size	
1	Length	3.5 Feet
2	Width	3.5 Feet
3	Height	8 Feet

➤ **Toilets (Model No.: WHTB-0434)**

- **Water Supply System: 1 Tap inside module with flush System**

- **Seat Type: 1 Western Ceramic Commode and 4 FRP Indian Pan Type**

➤ **Plumbing Material**

A	Material	
1	Body	Light Weight Fiber Reinforced Plastic (FRP)
2	Wall Thickness	3 mm
3	Base Thickness	6 mm
4	Door Size	750 mm X 1800 mm
5	Shower Material	PVC
B	Unit Size	
1	Length	3.5 Feet
2	Width	3.5 Feet
3	Height	8 Feet

➤ **Washbasin**

1	Washbasin	Fixed on the outer side of shower module
2	Size	12inch X 8 inch
3	Material	FRP
4	Color	White
5	Tap Material	PVC

➤ **Plumbing Material**

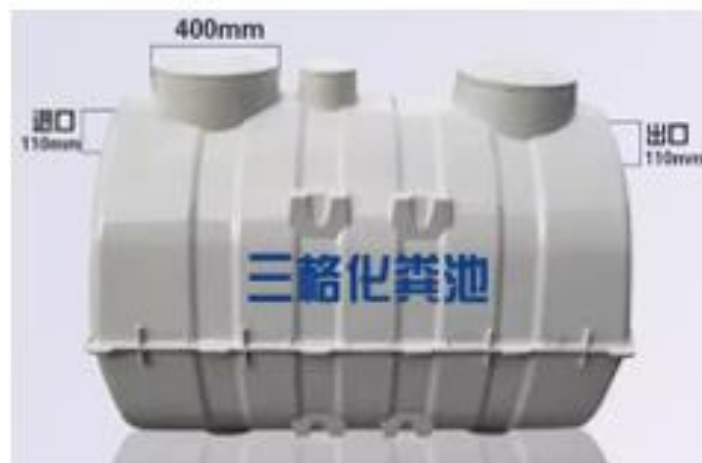

PVC Plumbing Material

➤ Tank

- 8 mm FRP Tank with 1000 Liters combined capacity for 1 set of Toilet
- 8 mm FRP Tank with 2000 Liters combined capacity for 1 set shower

➤ Drainage Storage

- 12 mm FRP Drainage Storage with capacity of 2000 liters with honey sucker outlet port

➤ **About FRP Drainage Storage**

L 1850*W1100*H1250mm

Good Sealing performance, deep purification without leakage, does not pollute groundwater, does not damage the surrounding environment, and has no odor.

Ultra long service life, durable for over 100 years. Resistant to acid and alkali corrosion, high temperature, aging, heavy pressure, and no deformation after long-term use.

The cleaning cycle is long and does not require management. Using the principle of sedimentation and anaerobic fermentation, the solidified material decomposes at the bottom of the tank. The decomposed material enters the second compartment for anaerobic fermentation and then enters the third compartment for anaerobic fermentation and then enters the third compartment. After step-by-step purification, clean water is discharged from the out let pipeline.
